## Upcycling Draw to ShelfProjects

Posted by [Nigel](#) Fri, February 27, 2015 18:31:38

Upcycling Draw to Shelf.

Recycling and Upcycling,most of you will have done one of these.

I don't like throwing things away.

You never know when you might need it.

From time to time we do give items away to charity,and thats a good Deed to do.

Most of us will get fed up of clutter,and then say thats it,skip it.

Where as me,i tend to keep it aside some where,and their will be a time when i will use it,disassemble it and make something constructive.

For example,below,this was a draw from a desk that i had no room for,but we needed some shelf spase for dvd's.

Above is the draw,nice one as well.

This is a Pull out Rest,in which this will create some Shelves.  
I used a dvd to get the size's and marked out on the draw,the depth,needed.

This is easy to do, just basic Wood Working Skills, measure, Cut, Drill, and Screw.

Safety is the key.

And here we are, almost the finished item, all that's needed is some Wax to give it some nourishment.

I hope I have given you an idea of what you can do with items, you think have no life or use around the house.

More projects on the way.

Enjoy Life, Be Safe.
