Upcycling Shelf to Shoe Rack. Projects

Posted by [Nigel](#) Sun, April 26, 2015 12:37:36

Upcycling Shelf to Shoe Rack.

Hi everyone,i havent updated for a couple of weeks,ive been busy sorting,decluttering and organising my Shed.

Upcycling is very popular,and is good for the enviroment.

My recent project is a Shoe Rack.

It consists of a pine book shelf and part of a pc work station.

I dont like to throw many things away,because i can always try and make use of them.

I havent shown step by step,but you can see it is basic,and easy to do.

The top part,shoe rest was made from an old pc work station,and the Leg supports.

The decortive arch was an old pine shelf,which wasn't doing anything.

The end result.

i didnt decorate it,for the time being,i like it the way it is,but i have plans to decorate it in an aboriginal type style.

You may have bits of timber lying around,dont throw them away,their is always a use for them.

Thanks for reading.

More projects coming soon,especially now the sheds sorted.
