## Tablet and Mobile Phone Stand.Projects

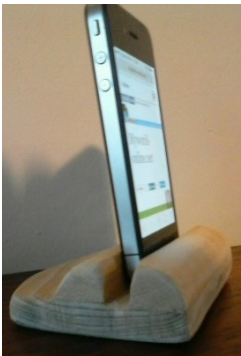

Posted by [Nigel](#) Tue, April 12, 2016 21:12:00

### **Tablet and Mobile Phone Stand.**

Hi everyone i'm following my recent theme of making handmade items from recycled materials such as palletts and off cuts.

My recent project was Coasters,which spurred me on to make a Tablet & Mobile Phone Stand.

I made the stand in the same way,with some minor adjustments and some curves.

I have been wanting to make a stand for a while,i'm pleased with the result,especially with the materials being Palletts and offcuts.

You may have offcuts lying around,their are so many things you can make from a bit of creativity and paitence.

Take your time and you will be rewarded.

Thanks for reading,more projects coming soon.
