### **Hand Made Tealight Holder.**

As mentioned yesterday i intended to upload my latest project,sorry for not showing the picture,but network issues are preventing me uploading.

At last i managed to uload,still with issues with network 26th.4.16.

More info below.

### **Hand Made Tealight Holder.**

Made from Pine,a nice little decorative handmade tealight holder.

Small and fuctional to help unwind with a candel,that gives off that relaxing glow.

In the background you will see another one of my projects,coasters and holder.

Both these items seem to complinent each other,both being different would types,pallets and pine.

More projects coming soon by the end of the week.
