Custom Wood SignProjects

Posted by [Nigel](#) Wed, May 18, 2016 16:02:06

Custom Wood Sign.

Here is a custom wood sign made from an old shelf.

myworld-online.net is the theme for the sign.

Its an example of what can be made from something just sitting around doing nothing.

I will be doing more signs in the short future.

Stay tuned for more custom hand made items.
