Wooden Coasters.

Time for another Project,and Coasters are the theme.

All looking good and Natural.

Nice shaped and ideal for your favourite Drink.

I like the Grain on the Coasters and the colour of the Coasters.

I'm thinking about doing some Placemats to go with them,all in good time.

Below are some Coasters made from Pallets,these are ideal for the Garden.

You could Varnish them or stain them to keep their natural look.

Coasters for the Home and Garden, and your Plants to.

How about these for Coasters, made from a pallet.

For your Plants as well as a cuppa.

Very sturdy and natural.

I enjoyed doing these, because of them looking a little like pallets, and very natural to.

I will be doing some more different styles soon.

To see more of my Projects and buy some, please take a look at <https://myworld-online.net/upcycling.html>
