## Book Ends.Projects

Posted by [Nigel](#) Mon, March 06, 2017 14:13:59

### **Book Ends.**

Everyone loves to read a good book,and if you have a favourite,where do you store it safely.

### **Book ends.**

My recent project/ideas are wooden Book ends.

A combination of various styles of wood/Pallets and Nice rounded timber.

Some pictures are below showing of the various styles.

Beautiful Pallets and showing of it's Natural Grain and Colour.

Sanded down to keep some of the rustic patterns,and grain from the pallet.

Pallet timber has a lot to offer and show off.

I have kept some of the indentations of the Pallet wit some Nails,which are finely sanded and smoothed to a fine finish.

Below are some Pine Book ends,small and ideal for your work station,for your books,such as Dictionaries or quick reference books or what ever takes your fancy.

Very smooth edges and rounded corners,below.

More Coming soon.
