Crate / Storage Box,very Rustic & Natural.Projects

Posted by [Nigel](#) Tue, April 11, 2017 10:47:13

Crate / Storage Box,very Rustic & Natural.to Buy one scroll down for other Versions i have.

Made recently from a pallet,more than a few weeks ago,i thought now was the time to show it,with all the sunshine and Gardens starting to bloom,and storage is always helpful,especially with something like the Crate/Storage Box.

It has alot of the bark left on it,and i think that adds to the appeal,very Rustic and Natural looking,it is a one off look,because of the bark,you don't see many pallets like this quality.

It has been sanded down and rounded off with curves,showing it's natural colour and grain of the wood.

What could you use it for:

For use within a Shop as a Display.

Very Nice.

My Arts & Crafts.

More Crafts.

Rounded of edges and a Nice Woody Grain.

For use in the bedroom as Storage for Clothes.

Rustic looking Dvd and Cd's storage.

For using in the Kitchen to store all baking supplies or spices by turning it on its sides as an unusual Storage shelf and unique,more shelves could be added.

For in the Garden collecting Apples,Veg or Potatoes and Beautiful Flowers.

Planter,yes you can use it as a Planter or for Growing Seedlings or half grown veg.

An usual Storage for carrying Picnic food and Plates etc,just a thought.

Magazine Rack for papers,Magazine's etc.

Carrying your Arts and Crafts to Fairs or Carboot sales.

Beautiful and Natural.

What ever you decide to do with one of these,it will definitely add character to your living room,Kitchen,Bedroom, or even your Shed,for bits and bobs.

Rustic.

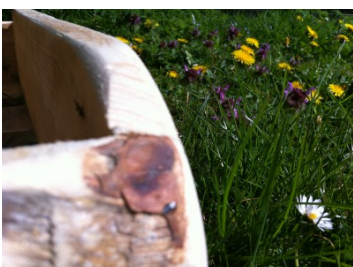

Here is a question,any ideas on what other ways of using it.

Some marks and indentations add to the Look and Feel.

Message me or like me on facebook if you like what you see.

If you would like to buy a Crate that is Handmade,please see below for other versions.

Beautiful and Rustic,Plenty of room for Storage.

Natural Looking and Crate Looking.

Rounded off Edges.

Love the Grain,Colour and Rough but Smooth.

This one is very Smooth and Pleasant to touch,and you can use in the Home or Garden.

If you want something that is still Natural,and also more Rugged,then the one below might be for you.

It does have Rough Edges and is more Rustic, and I think because of that, it looks like the kind you would use to collect Apples or any other Fruit in, or even use as a Planter for Growing your Seeds and Flowers or Veg.

You can do so much with these Crates, what would you use them for.

Would you like one, please Drop me a line or Message on Facebook.
